SECTION 01

Wayne, we built something for you.

Most agencies would send you a proposal. A slideshow. A pitch deck full of promises about what they *could* do.

We built you a website.

44 pages. Two languages. 34 local landing pages. Ready to launch.

We did this at no cost to you because we believe in earning business through work, not promises. We saw an opportunity in the bilingual mobile home market in Central Texas and

DFW — a market that is genuinely underserved online — and we wanted to show you what a serious digital presence looks like for Iron Lot Homes.

The demo site is live right now at **deme-cyber11.github.io/iron-lot-homes**. It's not a mockup or a wireframe — it's a fully functional, bilingual, SEO-optimized website with lead capture forms on every page, location-specific content for every city you serve, and native-quality Spanish content that speaks directly to the 85% of your clients who are Spanish-speaking.

This document walks you through everything we built, what happens the moment you give us the green light, and how we'll work together to grow Iron Lot Homes' online presence over the coming months.

SECTION 02

What We Already Built — For Free

This is what's waiting for you right now. A complete, professional web presence that positions Iron Lot Homes as the go-to mobile home buyer in Central Texas and DFW.

Full Bilingual Architecture

Every page in English and Spanish with proper hreflang tagging. Google understands these are two distinct audiences. Your competitors are not doing this — it's a genuine edge in a market where 85% of clients speak Spanish.

7 Schema Types Implemented

LocalBusiness, FAQPage, BreadcrumbList, AggregateRating, and more. This structured data helps Google understand exactly what your business does and display rich results in search.

34 Location-Specific Landing Pages

Austin, San Antonio, San Marcos, Lockhart, Kyle, Buda, Bastrop, McKinney, Princeton, Dallas, Fort Worth, and more. Each page has genuinely unique, localized content — not cookie-cutter templates.

Lead Capture Forms + Multi-Channel CTAs

Phone, form, WhatsApp, and sticky CTA bar on every page. No matter how someone prefers to reach out, there's a path to contact you. Every form is built and ready to activate.

Mobile-Responsive Design

Proper breakpoints, touch-friendly targets, and a responsive layout built for how your audience actually browses — on their phones. Loads fast with no heavy frameworks dragging it down.

Native-Quality Spanish Content

Not Google Translate. Real, natural Spanish written to build trust and feel authentic. This alone is a massive differentiator — most competitors either don't have Spanish pages or use awkward machine translations.

Fast, Clean Codebase

Conversion-Optimized Page Structure

No bloated WordPress themes. No slow page builders. Clean HTML, lean JavaScript, fast load times. This directly impacts your Google rankings — Core Web Vitals are a ranking signal, and your site outperforms most competitors on speed.

Professional layouts following proven conversion best practices: hero sections with clear value propositions, trust signals, step-by-step process explanations, testimonial sections, and strong CTAs throughout.

SECTION 03

What You're Getting

A clear look at everything included in your website and where each piece stands right now.

WHAT YOU GET	STATUS
Professional 44-Page Website 4 service pages + 34 location pages + homepages, about pages, and 404	Built & Ready

Search Console Verification

Google indexing, sitemap submission, search performance data

Setup at Launch

Custom Domain Setup

ironlothomes.com pointed to your new site

Configure at Launch

Total Value Delivered

Ready to Go Live

THE EXCITING PART

What Happens at Launch

Your demo site is fully built. Right now it has placeholder form keys because it's a demo — the moment you sign up, **everything goes live.**

Here's what happens within hours of you saying "let's go":

Launch Day Includes

✓

All lead capture forms go live — leads flow to your inbox

GA4

Analytics installed & tracking

GBP

Google Business Profile setup begins

We connect your custom domain, verify Google Search Console, submit your sitemap for indexing, and set up conversion tracking so you can see exactly which pages and keywords are driving leads. You go from having no website to having a fully operational, 44-page lead generation machine — all within 48 hours of saying yes.

✦ **Your website is built. The forms are ready. The content is written.** All that's left is flipping the switch. The moment you give the green light, we activate everything and your online presence goes from zero to fully operational.

You'll also receive an Onboarding Guide with the full growth roadmap, monthly deliverables, and milestone details.

SECTION 05

Your Investment

Straightforward pricing. No hidden fees. No long-term contracts.

ONE-TIME

$300

Website Launch & Setup

Domain configuration, form activation, analytics installation, Search Console setup, Google Business Profile creation, and full launch QA across all 44 pages. Your site goes from demo to live.

RECOMMENDED

MONTHLY

$300

SEO & Lead Generation

Ongoing optimization, content creation, Google Business Profile management, local SEO, keyword tracking, monthly reporting, bi-weekly calls, and unlimited support.

OPTIONAL ADD-ON

Social Media Management — +$100/month

Facebook & Instagram profiles, 3-4 posts/week, bilingual content, community engagement.

We invested significant time building your 44-page demo site at no cost because we believe in earning your business through work, not promises. We're a small agency — limited client roster, dedicated attention. When we take on a client, we go all in.

The ROI math is simple: One closed mobile home deal ($5K-$15K) pays for your entire first year of marketing investment. Your total first-year cost is $3,900. One deal covers that. Everything after is profit from a channel that grows over time.

- No long-term contracts
- Cancel anytime
- Results-based partnership
- Transparent reporting

SECTION 06

Your Website Is Built. Your Market Is Waiting.

Three steps to go from zero online presence to a fully operational lead generation machine.

1

Say Yes

Reply to this email, call, or text us. That's it. No lengthy onboarding, no paperwork marathon. Just say the word and we get started.

2

We Launch Within 48 Hours

We activate your forms, install analytics, connect your domain, and run a final QA check. Your 44-page site goes live and starts working for you.

3

Leads Start Coming In

With active forms on every page, Google Analytics tracking, and your Google Business Profile live, leads begin flowing. You focus on closing deals — we handle the pipeline.

Ready to launch?
